

**Amendment and Response under 37 C.F.R. 1.116**

Applicant: Ken G. Pomaranski et al.

Serial No.: 10/699,423

Filed: Oct. 31, 2003

Docket No.: 200209704-1

Title: SYSTEM AND METHOD FOR TESTING A CELL

---

**REMARKS**

The following remarks are made in response to the Final Office Action mailed July 24, 2006 and the Advisory Action mailed October 17, 2006. Claims 1, 5-10 and 13-18 were rejected. Claims 2-4 were objected to. Claims 11 and 12 have been withdrawn from consideration. Claims 19-23 were allowed.

With this Response, claims 1 and 3 have been amended. Claim 2 has been cancelled without prejudice as to the subject matter contained therein. Claim 24 has been added. Claims 1, 3-10, and 13-24 remain pending in the application and are presented for reconsideration and allowance.

**Claim Rejections under 35 U.S.C. §101**

Claims 14-18 are rejected under 35 U.S.C. §101 because the claimed invention is directed to non-statutory subject matter. The Office Action alleges that the claims recite a group of actions performed by a computer, but these actions produce no tangible result, therefore, the claims are directed to non-statutory subject matter.

Applicants respectfully submit that claims 14-18 are statutory process claims that are limited to a practical application within the technological arts. See MPEP §§2106(IV)(B)(2)(b) and 2106(IV)(B)(2)(b)(ii). Applicants respectfully submit that, in the very least, “testing the first cell with a test module that is external to the first cell”, as recited in claim 14, produces a tangible result. Further, Applicants respectfully submit that “storing results associated with testing the first cell” as recited in claim 17 produces an additional tangible result.

Accordingly, Applicants respectfully request withdrawal of rejection of claims 14-18 under 35 U.S.C. §101.

**Claim Rejections under 35 U.S.C. §112**

Claim 9 is rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The Office Action states that “[t]he use of the trademarked phrase

as a claim limitation, I2C, renders the claim indefinite.” The Advisory Action indicates that “I2C bus” is Registration Number 1982918.

Claim 9 recites “an I2C connection”. Neither the Office Action nor the Advisory Action establishes that “I2C connection” is a registered trademark. Accordingly, Applicants respectfully submit that no basis has been set forth for rejecting claim 9 under 35 U.S.C. §112, second paragraph.

For these reasons, Applicants respectfully request reconsideration and withdrawal of the rejection of claim 9 under 35 U.S.C. §112, second paragraph.

**Claim Rejections under 35 U.S.C. §102 and Claim Objections**

Claims 1, 5-10, and 13 are rejected under 35 U.S.C. §102(b) as being anticipated by Kauffman et al. (U.S. Patent No. 6,199,179).

Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 1 has been amended to include all limitations of objected to claim 2, and claim 2 has been canceled. Accordingly, Applicants respectfully request withdrawal of the rejection of claim 1 under 35 U.S.C. §102(b).

Claims 3-10 and 13 depend from claim 1. Accordingly, Applicants respectfully request withdrawal of the objections to claims 3 and 4 and the rejection of claims 5-10 and 13 under 35 U.S.C. §102(b).

Objected to claim 4 has rewritten in independent form as new claim 24 to include all of the limitations of the base claim and any intervening claims. Accordingly, Applicants respectfully request withdrawal of the objection to claim 24.

**Rejoinder of Non-Elected Claims**

Non-elected claims 11 and 12 depend from claim 1. Because claim 1 is in a form for allowance as noted above, Applicants respectfully request rejoinder of claims 11 and 12. See MPEP §821.04.

Claims 19-23 were allowed.

**CONCLUSION**

In view of the above, Applicant respectfully submits that pending claims 1, 3-10, and 13-24 are in form for allowance and are not taught or suggested by the cited references. Therefore, reconsideration and withdrawal of the rejections and allowance of claims 1, 3-10, and 13-24 is respectfully requested. In addition, rejoinder of claims 11 and 12 is respectfully requested.
